

To whom it may concern:

James Kekanovich has provided the music and special effects for our annual company Winter Party for the past two years and we look forward to a continuing relationship.

His programs are inovative, with state of the art equipment which enables him to respond successfully to all requests. Feedback following each event is positive.

His contribution in implementing stage effects with event themes is highly professional. I can count on James to expand on even the smallest ideas and make them spectacular..

I would not hesitate to recommend James to any company interested in a high standard of customer satisfaction.

Sincerely,

*Donna Dowler
