To whom it may concern,

We have worked with James Kekanovich on several successful projects. He offers great assistance in targeting markets that are important for our products. Some of the most successful events that he has helped us with include: "The Oasis CD release party", "The Spawn Movie and CD release party", and "The Korn Remixes CD release party". We are currently consulting with him on several new projects and foresee our successful relationship continuing to grow. If you have any questions please don't hesitate to give me a call 416-391-3311.
